Romanian Journal of Petroleum & Gas Technology is an open access, peer-reviewed, international scientific journal in the petroleum and gas field, published two times per year, and continues the long tradition established by the old periodicals of the Petroleum-Gas University Ploiesti, with the first issue appearing in the year 1956, in Bucharest, and continuing in Ploiesti since 1973, and especially Petroleum-Gas University of Ploiesti Bulletin - Technical Series (ISSN 1224-8495) (1992-2019), whose successor it is. The topic of the published papers covers all the fields linked to the petroleum and gas industry: wells drilling, wells production, petroleum geology and geophysics, petroleum products transportation and storage, petroleum technology and petrochemistry, renewable energies, environmental protection, petroleum and oilfield equipment, electrotechnics, electronics and automation in the petroleum industry a.o.
